### **CONSENT FOR TREATMENT**

**Please read the following information and sign where indicated.**

As Multidimensional Energy Therapists, we do not medically diagnose or prescribe treatment. Our approach is holistic, focusing on you as a complex, dynamic, unique being in body, mind, and spirit. We serve as a facilitator in your process of healing.

We may explore areas that influence your state of well-being, such as your health history, life stressors, your belief systems and attitudes, your family and childhood history, diet, exercise, and how you are in relationship. Your sharing is always kept confidential, with the exception of discussing clients in our professional supervision and peer consultation groups, where your identity will remain anonymous. The purpose of supervision is to further our professional development as healers and to serve you in the best manner possible.

The healing techniques balance, clear, and charge your energy field, remove energetic blocks that lead to disease, and enhance your body's natural healing potential. At times, we will directly touch your body and at other times we may work with your energy field off your body. For "in person" sessions you will always wear your clothing and will generally lie on a massage table while we work. We also offer "distance" sessions over the phone. If at any time during the session you are uncomfortable, it is your responsibility to inform us. Self-care is an extremely important part of your healing process.

Due to the nature of this work, we recommend you refrain from using alcoholic beverages for 24 hours following your session. We are most happy to answer any questions regarding our services, and we also encourage you to express any concerns. We hope you enjoy our services as much as we truly enjoy serving you.

I have read and understand the above information provided by Zero Point Healers. I further understand that the services are not to be construed as medical examination, diagnosis, or a substitute for medical treatment, and that nothing said or done during the course of any session should be construed as such.
